

Society for Functional Nanomaterials Academy-Industry Forum and Networking Event

12th September 2018
University of Central Lancashire,
Preston PR1 2HE, UK

8.30 am to 9.30 am: Registration and coffee

Welcome by Prof StJohn Crean, PVC Research, UCLan

A full programme of international and UK industry and academy speakers, to include:

**Nanobiointerfaces: Implications
of Biomolecular Corona**

Prof Morteza Mahmoudi
Harvard Medical School, USA

**Nanomaterials in food analysis
and diagnostics**

Dr Boris Oberheitman
CEO of Q Bioanalytic GmbH, Germany

**Tunable graphene based
membranes**

Prof Rahul Raveendran Nair
Manchester Graphene Centre

**How materials play a role in
bacterial regrowth in water
systems**

Mr Gary Hogben
Technical Manager, Feedwater Ltd., UK

**Heterogeneous photo-catalysis:
recent improvements, metal/oxide
heterojunctions and carbon supports**

Prof Anne Davidson
University of Pierre & Marie Curie,
Paris, France

**Micro/Nano manufacturing of
advanced engineering materials in
the industrial scale**

Prof Kai Cheng
Brunel University, UK

3.30 pm to 4.00 pm: Coffee & Networking

4.00 pm to 5.00 pm: Academy-Industry Forum Discussion

5.00 pm to 5.15 pm: Closing Ceremony and Vote of Thanks

Booking Details: www.FNMSociety.org

FNM

Society for Functional NanoMaterials
Mission Statement: *We promote activity
relating to Functional Nanomaterials
research and knowledge aligned with
current and future challenges within an
industrial and academic setting and in
pursuit of excellence.*
